

There's strength in connecting.

The Kidney Transplant Connectors (KTC) Program is an inspirational presentation for people on a kidney transplant waitlist or considering kidney donation presented by those who have walked in their shoes.

During each program, Kidney Transplant Connectors will:

- Share their personal stories about receiving and donating a kidney
- Discuss the importance of self-advocacy and consider all available options to help reduce time spent on the transplant waitlist.

To learn more about the KTC Program, please visit www.kidneytransplantconnectors.com
